

ZENITRAM  SYSTEMS  
**Doumbek***fx* DSP

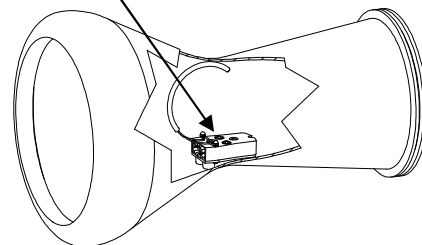

Introducing the new **Doumbek***fx* DSP, the fourth-generation of the “instant light show for your Doumbek,” from Zenitram Systems. This small unit instantly installs into your doumbek, or other hand-drum (djembe, etc.). When it’s activated, your drum head will flash different colors when you play bass tones and high ‘slap’ tones. You now have an enthralling light show right in your hands!

It takes less than a few seconds to stuff the **Doumbek***fx* DSP into your drum, so if you have multiple drums, you can use it in all of them!

**Features:**

- Flashes Red for bass notes and Blue for high notes.
- Bright enough for regular room lighting and even moderate stage lighting.
- Mounts in the neck of your drum, from 3.5” to 7” diameter.
- Runs on three (3) AAA alkaline batteries.
- All-Digital sound analysis engine for accurate lighting.
- Software upgradeable for future features\*.
- Auto-shutoff after 10 minutes to save your batteries.
- American Black Walnut hardwood enclosure.
- Size 3.3” x 2” x 0.9” (82mm x 50mm x 23mm). Weight approx 4oz (0.11Kg).
- All designed and hand-made in Ojai, California, USA!

*Cut-away view of a doumbek with the **Doumbek***fx* DSP unit installed inside.*

LED lights shine from inside to light up the head of the drum!

You can get yours by contacting Zenitram Systems at [doumbekfx@gmail.com](mailto:doumbekfx@gmail.com). We take online orders through PayPal. Price is only US\$60 + \$5 shipping within the USA. Please contact us for shipping costs on international orders.
